

HandyEat | Basic Work Process

Team: E.W.C

1. Analysis & Define the App

1. Targeting user group
2. Analysis user's demand
3. Analysis market
4. Setup and confirm main goal
5. List our limitations/constrain
6. Choose developing methodology
7. List all the tools we need

MIDTERM

2. Developing Process

1. Design app's logic and core functionality (may involve API)
2. Design specific process and user experience (may involve flowchart)
3. Design logo & user interfaces
4. Writing code (won't really do it)
5. Testing and debugging

3. Final Report:

1. Describe software design and functionality
2. Describe every milestone or stage from scratch to finish
3. List and describe each team member's task and meeting log
4. Summarize and analysis the tools we used
5. Conclusion and final thoughts for the whole project

	1. Analysis & Define the App	2. Developing Process	3. Final Report
Shilong Wang	Discuss together (But Yu Chen will write the draft)	2.1, 2.3	3.1, 3.4
Hsiang Teng		2.1, 2.5	3.2, 3.5
Yu Chen		2.2	3.1, 3.3
